Summary

Computer Science undergraduate at Bina Nusantara University, working across full-stack development, AR/mixed reality, UI/UX design, and RF engineering research. Built 8 projects spanning mobile apps, AR experiences, and academic research, including first-author research currently in revision for conference submission.

Education

Bina Nusantara University *Bandung, Indonesia*
S1, Computer Science. GPA: 3.74 / 4.0Sep 2024 – 2028 (Expected)
Streaming: Internet of Things

Experience

Beelingua, BINUS University*Bandung, Indonesia*
Language Mentor 2025 – 2026

- Mentored students in English language learning as part of BINUS's official Beelingua mentoring program.
- Facilitated interactive sessions focused on building communication skills and confidence in real conversation contexts.

Leadership & Activities

HIMTI, BINUS University *Bandung, Indonesia*
Chief Executive, Company Visit Event May 2025 – Aug 2025

- Selected as **Chief Executive** of a joint company visit event between HIMTI and BNCC BINUS Bandung — an educational trip to Apple Developer Academy, BSD City.
- Managed end-to-end logistics including **proposal writing, budget planning, participant coordination, and on-site execution**.

Responsi Division Activist2025 – 2026

- Active member of HIMTI's Responsi Division; this role led to selection as Chief Executive of the company visit event above.

Al-Wafi Student Organization *West Java, Indonesia*
Chief Executive, WafiFest 3.0Jan 2023 – Aug 2023

- Led WafiFest 3.0, a 3-day hybrid inter-school festival open to SMP and SMA students across Indonesia, themed "Agent of Change."
- Oversaw **54 committee members** across **7 divisions**, **10 competition categories** (MHQ, Speech, Essay, Business Plan, and more), and a total budget of **Rp 88.8 million**.
- Managed end-to-end execution from proposal to closing.

Language Division Coordinator 2022 – 2023

- Coordinated the Language Division responsible for trilingual proficiency programs across the school community (Indonesian, English, Arabic).
- Organized language activities and maintained consistent language use standards among students.

Projects

- **Digital Kos Management System (2024)** — Full-stack boarding house management app; built all 4 sprints (Flutter, Node.js/Express, MySQL, JWT auth, automated billing, WhatsApp/email notifications, Google Sheets sync, analytics dashboard). github.com/coppi-ux/kos-management
- **AR Animal App (2025)** — Unity/Vuforia Android AR app for early childhood education; de facto lead developer (collectibles system, raycasting, particle effects, GitHub workflow management). github.com/coppi-ux/ar-animal-app
- **RF Transformer Comparative Study (2026)** — Research paper comparing NiZn ferrite cores for a wideband RF transmission-line transformer for passive radar; first author and simulation lead, currently in revision for conference submission.
- **Arisanku (2026)** — UI/UX redesign of Indonesian "arisan" savings groups, focused on transparency and privacy; designed in Figma, tested with real usability sessions.
- **Interactive Gift Card Website, Graduation Quest, CookItUp, Rhythm Rentals** — additional self-initiated and coursework projects spanning JavaScript, HTML5 Canvas, Flutter, and C.

Skills & Awards

- **Runner-up, BINUS DIGISPEAK Competition 2025 (Debate)**: Reached the Grand Final among finalists from BINUS Bandung, Semarang, and Malang campuses.
- **Valedictorian, Best in Language (2023)**: Graduated as the top student in Language, Al Wafi Islamic Boarding School.
- **Soft Skills:** Learning over perfection, cross-functional leadership, public speaking, full-stack ownership.
- **Hard Skills:** Flutter, Node.js, MySQL, JWT, Unity, Vuforia, Figma, C, C#, JavaScript.
